

WATCHIRAPORN SUPHACHRUNSAP

SENIOR WEB DEVELOPER | PHP, WORDPRESS & WEB APPLICATIONS

Bangkok, Thailand | 087-212-9399 | wachiraporn.supha@gmail.com
github.com/BowwiiDev

PROFESSIONAL SUMMARY

Web Developer with 15+ years of experience developing and maintaining corporate websites, responsive interfaces, and PHP/MySQL applications. Strong background in WordPress and Drupal, including custom themes, content structures, and forms. Experience includes 30+ corporate projects at IT Ready and the corporate website plus 22+ residential project sites at SENA. Focused on practical solutions, maintainable code, and reliable day-to-day website operations.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, jQuery, Bootstrap, responsive layouts, cross-browser testing.

Backend & CMS: PHP, MySQL, PostgreSQL, WordPress, Drupal, custom themes and plugins, API integration.

Project experience: React, TypeScript, Node.js, Tailwind CSS; WordPress custom post types, taxonomies, and Gravity Forms.

Tools & supporting skills: Git/GitHub, Docker, XAMPP, Photoshop, technical SEO, HTML email, Codex-assisted development, n8n and webhooks.

PROFESSIONAL EXPERIENCE

Web Developer

SENA Development Pcl. | 2024 - Present

- Maintain and improve the corporate website and 22+ residential project sites, supporting responsive interfaces, content updates, and ongoing functionality.
- Develop PHP/MySQL features for property discovery, campaign registration, and back-office management; customize WordPress recruitment content and forms.
- Connect website registration workflows with internal services and email notifications, and troubleshoot application and hosting issues.
- Build campaign landing pages and responsive HTML emails, with SEO/AEO and workflow automation as supporting capabilities.

Web Developer

IT Ready Co., Ltd. | 2015 - 2024

- Developed and maintained WordPress and Drupal websites, custom themes, and plugins for 30+ corporate projects.
- Translated UI/UX wireframes and Photoshop layouts into semantic HTML, CSS, and JavaScript interfaces.
- Built HTML email templates and improved responsiveness, browser compatibility, accessibility, and website performance.

Webmaster

Global Computer Network Co., Ltd. | 2011 - 2015

- Analyzed requirements and developed custom websites and applications with PHP, MySQL, HTML, CSS, and jQuery.
- Managed website updates and troubleshooting; prepared documentation and trained end users.

Corporate Image Department

Rattana Bundit University | 2010 - 2011

- Converted website layouts into HTML/CSS templates and created logos, advertising banners, and brochures.

WATCHIRAPORN SUPHACHRUNSAP | SELECTED PROJECTS

SENA Metro Project Map

PHP, MySQL, JavaScript, HTML/CSS

- Developed property discovery features with map markers, filters, project details, and lead registration.
- Built back-office tools for projects, images, property types, train lines, map positions, lead search, and CSV export.
- Used prepared statements, output escaping, CSRF checks, and upload validation in application workflows.

SENA Break Every Limit - Campaign Website

PHP, MySQL, JavaScript, SMTP, CRM integration

- Developed customer registration and administrative workflows, including capture of UTM parameters and source URLs.
- Implemented separate customer and internal email notifications, delivery history, and retry controls.
- Implemented configurable CRM delivery and prepared database migrations and deployment packages; supported hosting and SSL troubleshooting.

SENA Career - WordPress Recruitment Theme

WordPress, PHP, Bootstrap, Gravity Forms

- Created recruitment pages with job listings, job details, employee stories, and internship content.
- Implemented custom post types, taxonomies, and filters for job function, location, and employment type.
- Integrated application forms with job context and built reusable content sections and Gutenberg block patterns.

SENA Property Search Chat - Functional Prototype

React, TypeScript, Node.js, Tailwind CSS

- Built embedded and full-page chat interfaces with rule-based search, project cards, detail views, and error states.
 - Connected the Node.js backend to a property-serving API for project information, pricing, and availability.
 - Packaged a reusable widget with TypeScript declarations and scoped styles; added validation and automated tests.
- This project remains a prototype.

EDUCATION

Bachelor of Science in Information Technology - Computer Science

Rattanakumbit University | 2005 - 2008 | GPA 3.14

DEVELOPMENT APPROACH

Use Codex as a development assistant for prototyping, iteration, and debugging. Distinguish demonstration projects from production work and document project scope, setup, and limitations.
